### **Busch+Kunz - The Company**

Since 1974, Busch+Kunz is one of Europe's leading manufacturers for fittings. Innovation, competence and high quality make this leading position possible in the production of seamless buttwelding fittings.

### **Busch+Kunz - Quality**

As Busch+Kunz meets the requirements of the ISO 9002, it goes without saying that we only offer you high quality. This means that we take special care of the development, tool-making, production and the delivery on-time of our products. Our certificates from the TÜV, Det Norske Veritas (DNV), Germanischer Lloyd, Stoomwezen, Siemens KWU and numerous customer audits certify our efforts and the achievements of our products.

### **Busch+Kunz - Delivery program**

The production is based on international norms according DIN, EN, ASTM, ANSI, ASME, API, AFNOR and BS. Special measurements are, of course, also available in various qualities of material and designs.

- BW Tees 1/2" up to 16"
- BW Concentric Reducers 1/2" up to 20"
- BW Eccentric Reducers 1/2" up to 16"
- BW Caps 1/2" up to 24"

### **Materials**

Busch+Kunz manufactures fittings of alloyed and unalloyed steel. Fittings of the following materials are available in stock:

ST 35.8/I, St 35.8/III, 15Mo3, 13CroMo44, P265GH, C22,8, WPB.

Fittings of different material are individually manufactured on customer's demand.

### **Busch+Kunz - Service**

With our spacious storage facilities with more than 3000 storage places and a capacity for more than 1500 tons of products, we meet the requirements for delivery on-time.

Our EDP-based storage enables us to transact your orders fast and reliable – just in time. Our reliability is the basis for our customers' satisfaction.

### **Busch+Kunz - Sales Team**

A well-experienced sales team takes care of consultancy, distribution and service. Get in contact with us and then we will offer you the suitable solution for your fitting problem.
